HOST THE WORLD CUP (LEVEL 1)

<table>
<thead>
<tr>
<th>Description</th>
<th>In this project, the learner will design a stadium and pitch for their home country to host the next FIFA World Cup!</th>
</tr>
</thead>
<tbody>
<tr>
<td>Leading Question</td>
<td>Can you help your country host the next World Cup?</td>
</tr>
<tr>
<td>Total Time Required</td>
<td>1 hour per day for 4 days</td>
</tr>
<tr>
<td>Supplies Required</td>
<td>Ball or newspapers or cloth/t-shirt, string, sticks/stones or household objects, paper, pencil, colorpens (optional)</td>
</tr>
</tbody>
</table>
| Learning Outcomes | • Football rules  
• Addition within 20 practice  
• Measurement  
• Telling time |
| Previous Learning | Numbers 1-20 addition, telling time in quarters |

DAY 1

Today, you will learn about the process of hosting a world cup and will design your own stadium.

<table>
<thead>
<tr>
<th>Suggested Duration</th>
<th>Activity and Description</th>
</tr>
</thead>
</table>
| 5 minutes           | • What do you know about the FIFA World Cup?  
• List three things you know about it.  
• If you don’t have any previous knowledge about the World Cup, then what are some things you would like to know about the World Cup? |

For your information:
• The FIFA World Cup is a football competition hosted every 4 years in a different country  
• It is an event where country teams compete to find out which country is the football champion of the world  
• In 2022, the World Cup will be held in Qatar  
• The World Cup is the most popular sports event in the world  
• There have been 20 World Cup tournaments so far, the first one being in 1930  
• Brazil has won the most championships - it has won 5 World Cups |

EAA welcomes feedback on its projects in order to improve, please use this link:  
https://forms.gle/LGAP9k17fMyJrKJN7
### 5 minutes

- Write down at least 3 interesting things about the World Cup.

You can do the following numeracy activities:
- Draw a number line starting with the year 1930 and ending with the current year, and count and mark in four year intervals the 20 World Cup events that took place since 1930.
- Then find the difference between the current year and 1930 to see how long it has been since the very first tournament.

<table>
<thead>
<tr>
<th>1930</th>
<th>1934</th>
<th>1938</th>
<th>...</th>
<th>2022</th>
</tr>
</thead>
<tbody>
<tr>
<td>+4</td>
<td>+4</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Now fill in the following blanks with the answers:

\[ \text{____} - \text{____} = \text{____} \]

### 30 minutes

Now you can play a game of football to experience what the World Cup is all about!

- Do you know how to play football?
- Play the game of football with one more player.

To prepare, use a ball and two sticks or any household object to mark the goals/gates. Brainstorm and experiment with different objects to create a ball.

Think about how different it would feel to kick a ball made of different materials like cloth, plastic etc.

Which ball do you think will travel the farthest with a light kick?

**Optional:** You can expand this activity and explore the different speeds at which different objects move when kicked:

- Gather 3-4 different items of different shapes and sizes including objects that are round, square or triangular, large, heavy, small, and light.
- First, guess which object will travel the farthest and why. Then mark your starting point with an object such as a stick and kick the objects with equal force and record the distance traveled by placing another object where the kicked object stops.
- Then discuss your findings:
  1. Which shape rolled the fastest?
  2. Do larger or smaller objects travel faster? Why?
If you are unable to come up with ideas for creating a ball, think of balling up old newspapers or a large piece of cloth or fabric and tying them together with a string as shown in the image below. Trial and error is an important part of this process. Don’t be afraid to experiment before providing a solution.

Once you have created the ball, come up with (and write down if possible) a few rules for the game based on your knowledge of football. For example, the player who scores the most goals wins, a referee will keep time etc.

Think about what should happen in different scenarios. For example, what if there is a tie? What if a player is injured? etc.

If you are unfamiliar you can use some of these rules outlined below:

- Each player represents a team. If two players are playing, there are two teams. Players will decide which team they want to play for. This can be a national (country) team or a famous football club (e.g. FC Barcelona).
- Make sure to keep the number of players in each team as even as possible if you would like to add more players. Each team usually has 11 players in the field including the goalkeeper, but in our game, there will be one player for each team in the field.
- There will be a third person who will act as the referee. The job of the referee is to keep time and to make sure players are playing by the rules of the game.
- The referee will warn players if they break any of the rules by giving them a yellow card first then a red card. When players get a red card, they are disqualified from the game. The referee can write “red” and “yellow” on small pieces of paper if no color pens are available to make the cards.
- The game can also be played without a referee.
### The Aim of the Game
- The aim of the game is to kick the ball into the goal of the opposite team, and score more goals than the other team.
- You cannot use your hands to move the ball, you can only use your feet.
- Usually, football games are 90 minutes-long with a break in the middle, but our game will be 10 minutes-long.
- If teams are tied, extra time is given. It is usually 30 minutes, but we will give players 5 minutes. If teams are still tied, they can play penalty kicks: players will defend their goal and the player from the opposite team will kick the ball and try to score. The goalkeeper should only move to protect his or her goal. He or she will not try to take the ball from the other player. Players take turns doing penalty kicks in their opponents’ goals until one player scores. He or she is then the winner.

### 15 minutes
- You can first practice a simple game where two players try to score in each other’s goals for a few minutes to become familiar with football before playing the longer game with rules.
- Make sure you understand the rules before starting.

**Recap** by asking yourself some questions - how many minutes is the game? What happens if there is a tie? Etc.

You can time yourself for 10 minutes and allow 5 minutes of penalties if tied.

### 5 minutes
- After the game, reflect on the game.
  - How was the game? What did you like or dislike about it?
  - Who won and why do you think they did? Was it easy or difficult to score?
  - How good do you think you would be as a professional football player? Why?

**Literacy activity:** Recount and write down a few football rules from memory.

---

## DAY 2

Today you will reflect on yesterday’s game and recap the rules.

<table>
<thead>
<tr>
<th>Suggested Duration</th>
<th>Activity and Description</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

---

EAA welcomes feedback on its projects in order to improve, please use this link:
https://forms.gle/LGAP9k17fMyJrKJN7
Reflect on yesterday’s game by answering the following questions:

- What are some important things to consider when you are playing football?
- Do you think that the location you played in yesterday was helpful?
- Why or why not?
- Where are football games usually played?
- What are some advantages and disadvantages of the location of yesterday’s game?

Official football games are usually played in stadiums. Stadiums have specific requirements.

- Can you think of some requirements?
- If you have attended or watched a football game before, what are some things you remember about the stadiums?
- What shape is the playing field in a stadium?

The requirements for stadiums for countries hosting the FIFA World Cup are as follows:

- They must be able to host a total of 40,000-80,000 people for different events. 80,000 is a lot of people! If you have 100 people living in your neighborhood, 80,000 is like 800 neighborhoods like yours with 100 people living in them!
- Playing fields must be rectangular in shape with 105 meters in length (the long side of a rectangle) and 68 meters in width (the short side of a rectangle). They are divided into two halves by a halfway line that cuts through the middle of the field.
- The ground must be even and flat and covered with either natural or artificial grass. There should be no holes.
- The goal post should not be longer than 12cm wide and should have a net attached.
- There should be an area with benches for players from the two teams. It should be located 1 meter outside the playing field.
- There should be a dressing room for players.
- There should be a dressing room for referees.
- There should be enough lighting throughout the stadium.
- There needs to be a canteen (small shop where people can buy food).
- There should be seating for disabled people.
- The stadium should contain enough toilets for male, female and disabled people.
- There should be a medical room with supplies.
- There should be a scoreboard visible from all areas of the stadium.
EAA welcomes feedback on its projects in order to improve, please use this link:
https://forms.gle/LGAP9k17fMyJrKJN7

***Older/advanced learners can be asked to go through this document and extract a few requirements (10-15) to practice their reading skills.

5 minutes

Now draw a top view of a rectangular playing field (as shown in the image above) and mark the lengths and width as 105 meters and 68 meters, respectively. Divide it in half with the halfway line.

10 minutes

Do you know which country has won the bid to host the World Cup in 2022? It’s Qatar! Qatar is the first Arab country to host the World Cup! Let’s look at the stadiums Qatar has built to host the different games and events:
EAA welcomes feedback on its projects in order to improve, please use this link: https://forms.gle/LGAP9k17fMyJrKJN7

Reflect on the designs:
- What do you notice about the designs of these stadiums?
- Which one is your favorite? Why?

These designs are not random. They represent Qatari culture and heritage. Some examples:
Al Bayt stadium is inspired by bedouin tents (bayt al sha’r) that the people of Qatar used to live in in the past

Lusail stadium
Al Bayt stadium
Al Janoub stadium
Al Rayyan stadium
Khalifa International stadium
Education City stadium
Ras Abou Aboud stadium
Al Thumama stadium
**DAY 3**

Today, you will finalize the design of your stadium and work on the rest of your bid

<table>
<thead>
<tr>
<th>Suggested Duration</th>
<th>Activity and Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>15 minutes</td>
<td>Work on finalizing the design of the stadium. Some guiding questions you should consider are included below:</td>
</tr>
<tr>
<td></td>
<td>• Does the stadium fit the maximum number of people who will be attending the largest event (i.e. 80,000)?</td>
</tr>
</tbody>
</table>

EAA welcomes feedback on its projects in order to improve, please use this link:
[https://forms.gle/LGAP9k17fMyJrKJN7](https://forms.gle/LGAP9k17fMyJrKJN7)
<table>
<thead>
<tr>
<th>5 minutes</th>
<th><strong>Get creative with the playing field design:</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Remember that the field is divided into two halves by the halfway line. This is a line that runs across the middle point of one of the longest sides to the other longest side.</td>
</tr>
<tr>
<td></td>
<td>- Is there another way to divide a rectangle in half?</td>
</tr>
<tr>
<td></td>
<td>- Try to divide a rectangle in half in a different way.</td>
</tr>
<tr>
<td></td>
<td>Hint: it can be divided diagonally from one corner to the opposite one. Draw different ways to divide a rectangle in half.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>10 minutes</th>
<th>Next, you will calculate the cost of constructing the stadium based on the following price list (or another list compiled or made up by the educator and/or the learner):</th>
</tr>
</thead>
</table>
|            | - 1 stadium light: 2 QAR  
            | - 1 canteen: 5 QAR  
            | - 1 dressing room: 2 QAR  
            | - 1 bench: 1 QAR  
            | - 1 medical room: 4 QAR  
            | - 1 goal post: 1 QAR  
            | - 1 scoreboard: 1 QAR |
|            | Before calculating the cost, make sure to first identify how much of each item is needed. |

<table>
<thead>
<tr>
<th>5 minutes</th>
<th>Now move on to the other details of the bidding process.</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Countries bid to host the World Cup and FIFA selects the winner.</td>
</tr>
<tr>
<td></td>
<td>Beside the stadium, what else do you think is needed for a country to host this event? Keep in mind that many people travel from other countries to attend.</td>
</tr>
<tr>
<td></td>
<td>Brainstorm and share some ideas such as having the right weather for outdoor games, having a place for players and visitors to stay etc.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>5 minutes</th>
<th>Consider the following requirements:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>- There should be enough places for people who are visiting for the World Cup to stay. Imagine that half of the audience (i.e. 40,000 people) will be coming from outside the country, where will they stay? The country should have enough hotels or houses for everyone</td>
</tr>
</tbody>
</table>

EAA welcomes feedback on its projects in order to improve, please use this link: [https://forms.gle/LGAP9k17fMyJrKJN7](https://forms.gle/LGAP9k17fMyJrKJN7)
10 minutes | Make a list of other requirements that you can think of.

---

**DAY 4**

Today, you will finalize your bid and present it to the “FIFA committee”.

<table>
<thead>
<tr>
<th>Suggested Duration</th>
<th>Activity and Description</th>
</tr>
</thead>
</table>
| 10 minutes         | First, create a sample schedule for a game using the following guidelines  
|                    | - All football games are 90 minutes long. They are divided into two halves - 45 minutes for the first half and 45 minutes for the second half  
|                    | - There is a 15 minute break at halftime  
|                    | - If teams tie, they have to play penalty kicks for 30 minutes  
|                    | - Create a schedule for a game using the following table. The learner will write the name of the activity, the starting time, and the ending time. He or she will also draw the clock for the start time as shown in the example below. The first activity has been done as an example:  

<table>
<thead>
<tr>
<th>Activity</th>
<th>Time starts</th>
<th>Clock at starting</th>
<th>Time ends</th>
</tr>
</thead>
<tbody>
<tr>
<td>First half</td>
<td>4:00 pm</td>
<td>![Clock Image]</td>
<td>4:45</td>
</tr>
</tbody>
</table>

EAA welcomes feedback on its projects in order to improve, please use this link:  
https://forms.gle/LGAP9k17fMyJrKJN7
Next, write down the following stadium details:

- Name of country and city where the stadium is located
- Name of the stadium and a sentence on why he or she chose this name
- Capacity (number of seats for the audience)
- Facilities (number of toilets, canteens, lights, medical room etc.)
- Transportation plan: how people will get to the stadium and back home
- The total cost of constructing the stadium

Gather your stadium design, playing field design, sample schedule for a game, and other requirements list, and begin presenting the bid to the family members or class, who will act as the FIFA committee. You must share the following details:

- Your name
- The paper you wrote the stadium details on
- Schedule for a game
- The stadium design and what it means
- Other requirements and things that will be done to make sure the event is successful (hotels, buses, festivals, safety of stadium and workers etc.)

Optional: you can try to create a “stadium experience” for your family or class by arranging a few chairs and items to model their stadium design if possible. You can also use stones and sticks to represent seats and other components.

The committee will give you feedback on the presentation and bid.

Revise the bid based on the feedback and finalize your bid.

Reflect on:

- What you learned
- What surprised you
- Areas you still have a question about

The parents/educator will answer the your questions

**ASSESSMENT CRITERIA**

- Completed stadium and playing field sketch
- List of other requirements
- Critical thinking displayed in creating the stadium and other requirements list
- Creativity in design of stadium and integration of cultural elements
- Communication skills in bid presentation

EAA welcomes feedback on its projects in order to improve, please use this link: https://forms.gle/LGAP9k17fMyJrKJN7
ADDITIONAL ENRICHMENT ACTIVITY

- The learner can design 3 stadiums for different events: one with 80,000 capacity for opening ceremony and match, one with 60,000 capacity for semi-finals, and one with 40,000 capacity for the rest of the games.
- Learners can design simple 3D stadiums using paper and tape/glue instead of drawing them.

SIMPLIFICATION

- The learner can simply create a stadium design and present it along with some requirements instead of including game schedule, total cost and other elements of the final bid.
